The House That Beats Them All for the Prin Shearer Bros.

We are required to report six times each year to the Comptroller of the Currency (Supervisor of National Banks). These reports are very exhaustive and convey such information regarding our financial condition as will enable the supervising authority to determine whether our business is being carried on with proper regard for the safety of funds entrusted to our keeping

We are also subject to semi annual examination by Government examiners, who call without giving any notice or warning whatever. The examiners go over and prove all of our books and securities and inquire into every phase of our operations.

We have always welcomed the strictest supervision and shall continue to do so.
